OFFICIALSupplemental Amendment

Please cancel claims 1 and 7. Please amend claim 2, and add new claims 20-22, as follows:

Sub D1 2. (Twice Amended) A cooking vessel comprising a pan, a removable lid assembly comprising a lid having a generally convex upper surface and a generally concave lower surface and a peripheral rim, said lid assembly further comprising a knob assembly on said upper surface and defining at least one aperture through said knob assembly and said lid, said lid assembly further comprising a thermometer including a probe extending downward through said aperture and a temperature display, wherein said probe has a bottom end disposed above the rim, said probe containing a temperature sensing device disposed beneath said aperture and within said cooking vessel, wherein said knob assembly includes a movable member having a dual function notch formed therein that operates selectively both as a release to selectively permit removal of the movable member for cleaning, and as a slot for vapor discharge to selectively enable the whistle body.

Sub D2 20. A cooking vessel comprising a pan, a removable lid
